**Based on
PMBOK 5th Ed and PMI's
Standard for Risk
Management**

Center for Advanced Studies in Engineering (CASE) is affiliated with University of Engineering and Technology Taxila, and is one of the renowned institutes of Pakistan, offering degree courses at all levels in multiple fields. Considering the importance of Project Management, CASE has started PMP Exam Preparation Course.

Considering the importance of Risk Management, we have introduced the prep course for PMI-RMP Certification. However, this course shall be equally useful for those who just want to learn this area so as to improve their Risk Management skills.

Session Topics:

1. RMP Overview
2. Introduction
3. PMBOK Overview
4. Plan Risk Management
5. Identify Risks
6. Perform Qualitative Risk Analysis
7. Perform Quantitative Risk Analysis
8. Plan Risk Responded
9. Control Risks
10. Mock Exam

Risk Management
Professional
